## Apprentice:

(n.) One who is bound by indentures or by legal agreement to serve a business person, for a certain time, with a view to learn the art, or trade, in which his master is bound to instruct him.

(v. t.) To bind to, or put under the care of, a master, for the purpose of instruction in a trade or business.

These courses are good for non-business majors who wish to study: Engineering, science, health administration, college administration, and government.
